The Port Authority announced that it will finalise its Strategic Plan during 2020 and draw up the concrete specifications for the cargo handling service.

José Benito Suárez commented that, in spite of having suffered a drop in port traffic as a consequence of the pandemic, the port will manage to close the year in a positive way.

The need to manage the water area of the Galician estuaries in a homogeneous manner was also analysed, for which a meeting will be arranged with the Directorate General of Coasts.
