

## The Puertos del Estado stand will be the port system's 'common home' at a dozen international fairs

- The calendar starts on Monday with Boot Düsseldorf and ends in October at Fruit Attraction in Madrid
- PE prepares the 2020 calendar "adjusting meetings to the new needs" of the Port Authorities

15-01-2019 (Ministry of Public Works and Transport). Puertos del Estado (PE) will serve as the Spanish port system's 'common home' at the sector's main international fairs. The Corporate Management has agreed the calendar for 2019 with the Port Authorities, which includes ten events that PE will attend with its own stand to offer services and a common brand to the organizations, entities, associations and companies of the general interest system who so request it.

"The Puertos del Estado stand at international fairs has long been a point of reference and an important meeting point in these forums where contracts and collaborations between agents from all over the world that affect the local economies of our country are entered into," the Corporate Director of Puertos del Estado, Magec Montesdeoca, highlighted.

"It's a very interesting contribution to the whole system that we support, and that we are going to promote through a calendar proposal for 2020 adjusted to the new needs of the ports," says Montesdeoca, "through a common review of the annual calendar and the Port Authorities shall participate in this process that we have already started".

The first event in the 2019 calendar is Boot Düsseldorf (from January 19 to 27, Germany), which is devoted to water sports. It will continue with Fitur in Madrid, devoted to the tourism sector (from January 23 to 27, Spain).

It continues with Fruit Logistica in Berlin, which is a fair specialized in the fruit and vegetable sector (from February 6 to 8, Germany), followed by
